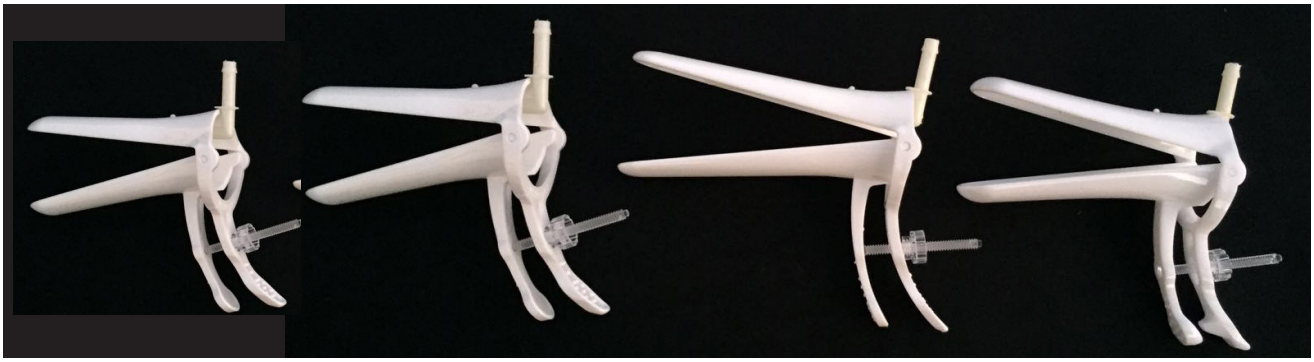
STERILE SINGLE USE VAGINAL SPECULUM WITH SMOKE EXTRACTOR

- Sterile Single Use Vaginal Speculum with smoke evacuation tube.
- Designed for use with Leetz loop diathermy.
- Smooth round edges increase patient comfort.
- Colour efficiently reflects light, ensuring maximum visibility for the procedure.
- Improved configuration of holes which removes smoke effectively.
- Proven strength, with Failsafe Points uniquely built into each vaginal speculum.
- Supplied sterile in box of 25.

- small size
- broad size
- medium long size
- medium size



Code	Description	Size
• **TZ-400111**	Vaginal Speculum with Smoke Extractor	**Medium** 111mm Long x 30mm Wide
• **TZ-400112**	Vaginal Speculum with Smoke Extractor	**Medium Long** 140mm Long x 30mm Wide
• **TZ-400113**	Vaginal Speculum with Smoke Extractor	**Small** 100mm Long x 25mm Wide
• **TZ-400114**	Vaginal Speculum with Smoke Extractor	**Broad / Large** 112mm Long x 38mm Wide

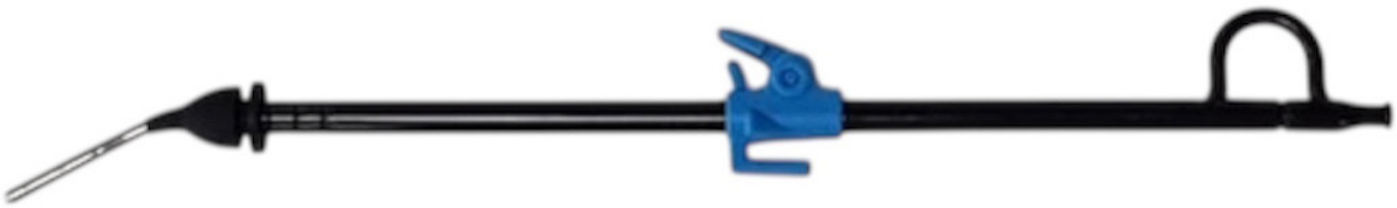
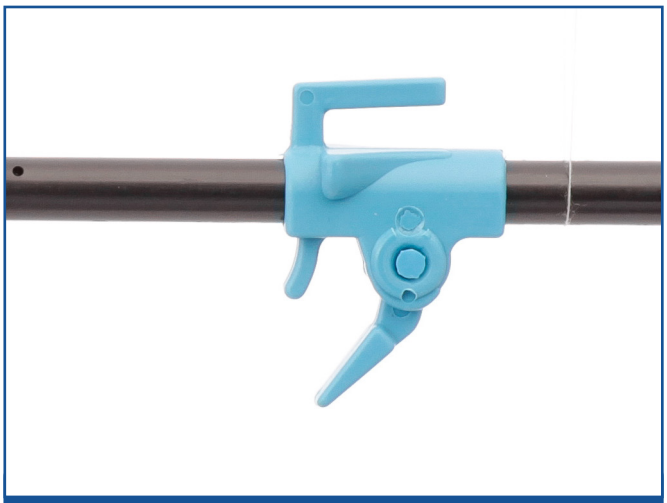
STERILE DISPOSABLE SPACKMAN UTERINE CANNULA



- **SINGLE-USE** - Provides a cost-effective way of guaranteeing sterility and preventing any chance of cross-contamination.
- Manufactured from Stainless Steel and Lexan Polymer.
- Good seal on cervix.
- Simple locking mechanism holds fast and it securely holds the vellsullum forceps in place.
- Luer connection on proximal end for fitting to syringe。
- **Comformity**: MDR / CE 0120
- Latex Free
- **Packaging**: Individual peel pouch sterilisation packets (with indicator)
- Supplied in box of 25



The unique locking device holds the vellsullum forceps in place.

Acorn to achieve an effective seal.

Code	Description
SHEF-UC001	Sterile Single Use Uterine Cannula

STERILE SINGLE-USE PTFE COATED NON-STICK

- Minimize adhesion & prevent bleeders from resuming.
- Safer for the patient & reduces the risk of damaging surrounding tissue.
- Electrode does not need to be removed and cleaned.
- Latex free & supplied in box of 10.

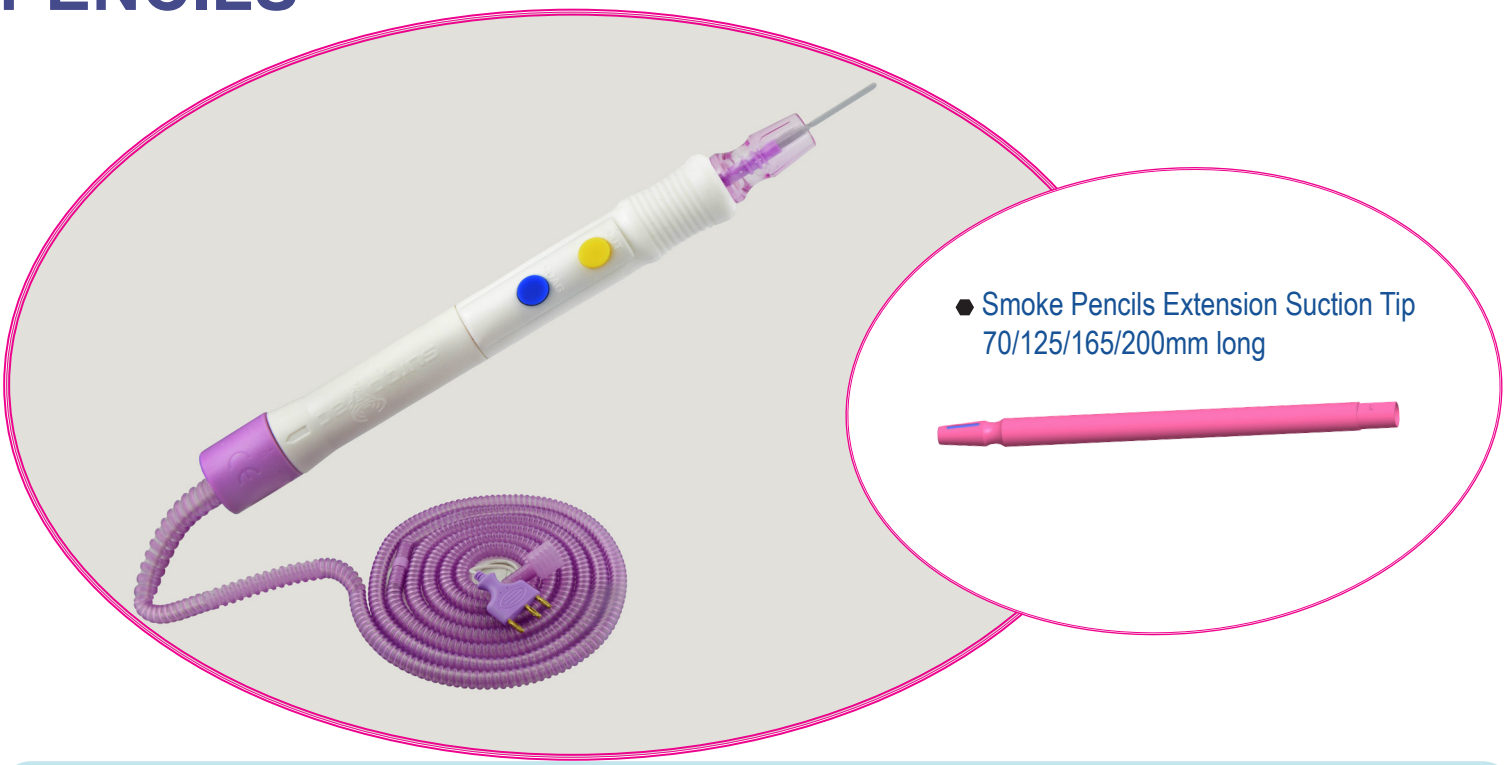
• **BM-HE007-C**	L Hook Electrode, monopolar diathermy connection, with 3m cable	5mm/330mm long
• **BM-SE007-C**	Spatula Electrode, monopolar diathermy connection, with 3m cable	5mm/330mm long

STERILE SINGLE-USE SMOKE EVACUATION PENCILS



- Smoke Pencils Extension Suction Tip 70/125/165/200mm long

- Offers an all-in-one design to eliminate the need for multiple smoke evacuation products that need to be assembled in the sterile field.
- Light flexible tubing allows axial rotation.
- Designed for maximum visibility in the surgical site and comfort in the surgeon's hand.
- Compatible with a wide range of electrodes.
- Greater capture of harmful pathogens contained in surgical smoke.

Code	Description
MED-04-301	Smoke Evacuation Pencil, Push Button, Handcontrol, 3 Prong Switch, Removable PTFE non-stick coated 70mm Blade Electrode, 3m Cable, Sterile Single Use
MED-04-302	Smoke Evacuation Pencil, Push Button, Handcontrol, 3 Prong Switch, Removable Stainless Steel 70mm Blade Electrode, 3m Cable, Sterile Single Use
MED-04-303	Smoke Evacuation Pencil, Push Button, Handcontrol, Cradle and Tubing, 3 Prong Switch, Removable PTFE non-stick coated 70mm Blade Electrode, 3m Cable, Sterile Single Use
MED-04-304	Smoke Evacuation Pencil, Push Button, Handcontrol, 3 Prong Switch, Cradle and Tubing, Removable Stainless Steel 70mm Blade Electrode, 3m Cable, Sterile Single Use

** Add **-H** to code if you require Smoke Evacuation Pencil with Holster
Add **-R** to code if you require Smoke Evacuation Pencil with Rocker Switch
Add **-RH** to code if you require Smoke Evacuation Pencil with both Holster and Rocker Switch

Code	Description
MED-04-305	Smoke Pencils Extension Suction Tip, 70mm long, Sterile Single Use
MED-04-306	Smoke Pencils Extension Suction Tip, 125mm long, Sterile Single Use
MED-04-307	Smoke Pencils Extension Suction Tip, 165mm long, Sterile Single Use

MED-04-309	Smoke Evacuation Tubing, 3/8 inch x 10 Feet
MED-04-309A	Smoke Evacuation Tubing, 7/8 inch x 10 Feet

COTSWOLD MICRO DISSECTION NEEDLES

Designed for use with virtually all electrosurgery generators and the majority of electrosurgery handles / finger switches, the Cotswold range of Monopolar micro-dissection needles are exceptionally fine needles for precise Monopolar dissection and offers the surgeon the ability to direct the power from the electrosurgery generator to an area (typically 3 micron) at the needle tip.

Traditionally produced “sharp” electrosurgery needles become blunt very quickly during a procedure due to the stainless steel “melting”, particularly with such a fine point. The Cotswold needles are produced in rigid, high temperature pure tungsten which has a melt temperature of 3400ºC, significantly higher than those temperatures used in electrosurgery.

BLADE ELECTRODES

- Non-Stick PTFE coating minimizes adhesion and prevents bleeders from resuming when concluding the procedure.
- This allows for fulgration to be achieved with greater success rates than with standard stainless steel ball electrodes.
- Single-use and supplied sterile in box of 10.
